## FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

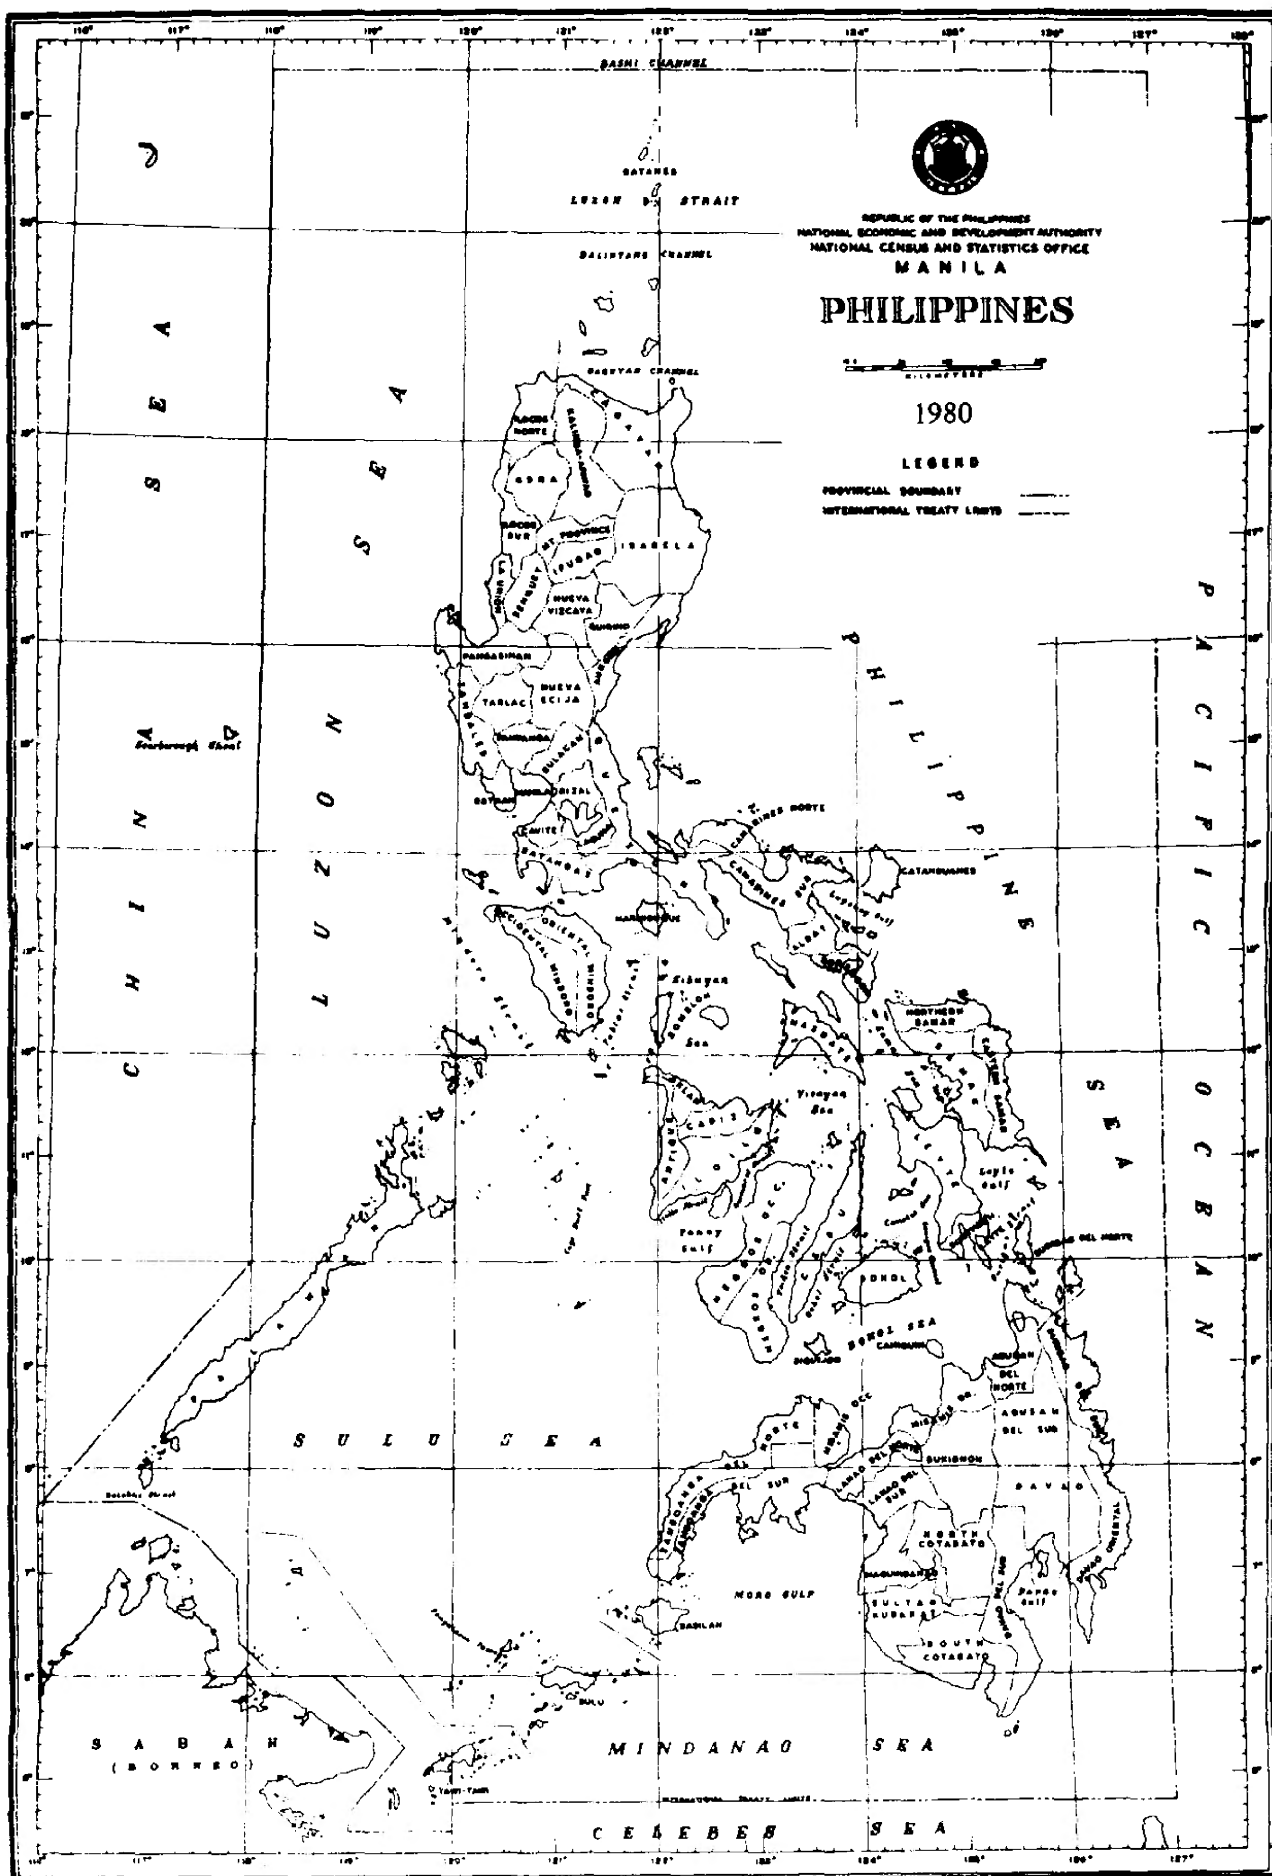

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

  
TITO A. MIJARES

Manila, Philippines  
May 1983

# Explanatory Text

## GENERAL

### INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

### AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

### INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

## EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

### CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

## EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

### CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators *in that order*.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

### METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

### PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

## EXPLANATORY TEXT

### POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

### CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

### DEFINITION OF TERMS AND CONCEPTS

#### I – POPULATION

##### BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

## EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

### ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

### URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
  - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
  - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
  - c. At least three of the following:
    - 1) A town hall, church or chapel with religious services at least once a month;
    - 2) A public plaza, park or cemetery;
    - 3) A market place or building where trading activities are carried on at least once a week;
    - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

### PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
  - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

## EXPLANATORY TEXT

- or within one year, if abroad;
  - b. students who usually go home to their respective households at least once a week;
  - c. persons working elsewhere who usually go home to their respective households at least once a week;
  - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
  - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
  - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
  - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
  4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
  5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
  6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
  7. Persons found in the household who have no usual place of residence elsewhere;
  8. Persons found in the household who are not certain of being enumerated elsewhere;
  9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
  10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
  11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
  12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

## EXPLANATORY TEXT

### PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

### USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

### HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

## EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

### PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

### RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

### LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

### HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

### RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

## EXPLANATORY TEXT

3. Son-in-law/daughter-in-law — refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter — child of the son or daughter of the head.
5. Other relative — a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others — any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

## AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

## MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single — If never been married.
- b. Married — Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed — A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated — If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced — If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown — If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

## CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

## LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

## **EXPLANATORY TEXT**

### **HIGHEST GRADE COMPLETED**

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

### **USUAL OCCUPATION**

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

### **INDUSTRY**

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

### **EVER-MARRIED WOMAN**

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

## **II – HOUSING**

### **BUILDING**

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

## EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

## **EXPLANATORY TEXT**

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

### **DWELLING UNIT**

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

### **CONSTRUCTION MATERIALS OF ROOF**

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

### **CONSTRUCTION MATERIALS OF OUTER WALLS**

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

### **YEAR BUILDING WAS BUILT**

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

### **NUMBER OF ROOMS IN THE DWELLING UNIT**

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

## **EXPLANATORY TEXT**

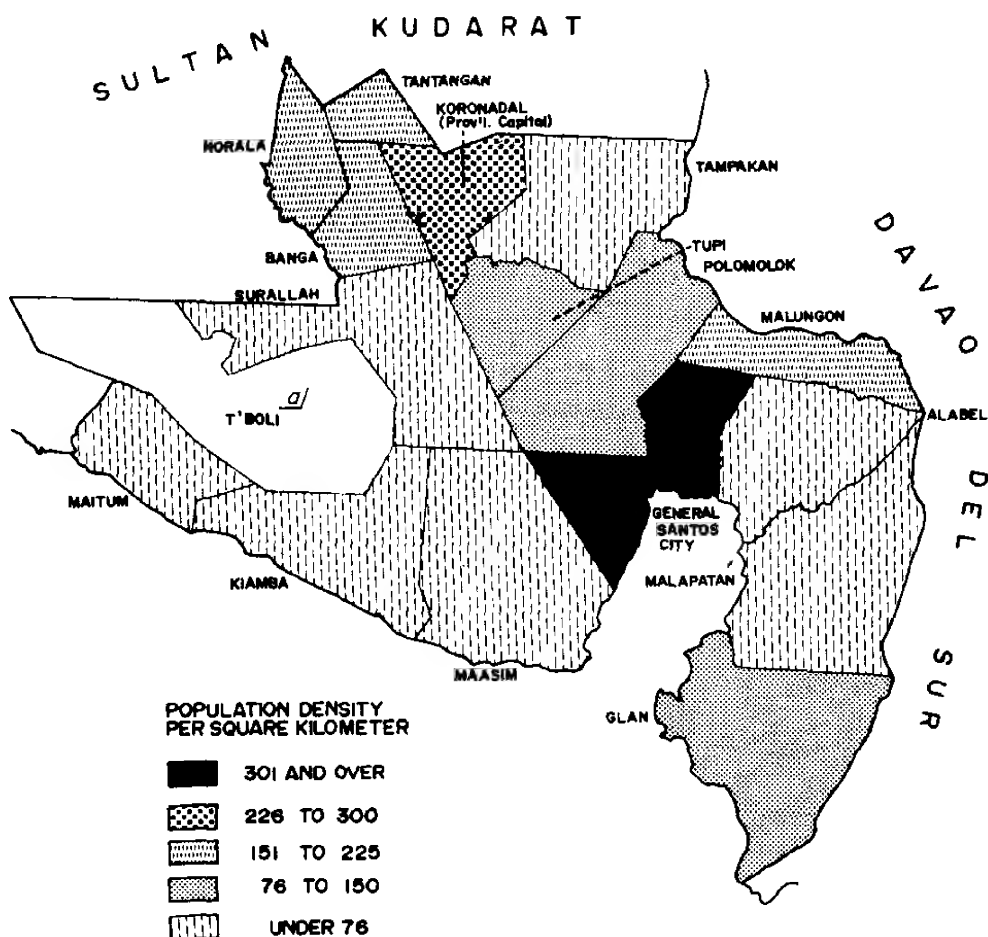

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

## **FLOOR AREA OF DWELLING UNIT**

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

POPULATION DENSITY OF  
SOUTH COTABATO PROVINCE  
BY CITY/MUNICIPALITY: 1980

*a/* Area not well - defined, still included in Banga, Kiamba, Maasin, Maitum, Polomolok, Surallah and Tupi.

## South Cotabato: A Brief Analysis

South Cotabato occupies the southern portion of Mindanao, bounded by Davao del Sur on the east, by the Celebes Sea on the south and west, and Sultan Kudarat on the north and northwest. It was created under Republic Act No. 4840 dated June 18, 1966.

The province is divided into three areas: Allah Valley, Koronadal Valley and the Coastal Plain Areas. The Allah and Koronadal Valleys are part of the Cotabato basin which when fully developed can supply all the rice needs of the entire country, while the coastal plain areas are noted for coconut and cattle ranches. South Cotabato is crisscrossed by two mountain ranges, the Apo Range which forms the boundary between the province and Davao del Sur and the Roxas Range which separates the Allah and Koronadal Valleys. Dotting the length and breadth of these mountain ranges are the beautiful and shapely volcanoes, some of which are active while others are dormant. However, aerial view of the province is flat with scattered low hills. Covering a land area of 7,468.8 square kilometers, South Cotabato represents 2.49 percent of the country's total land area.

General Santos City and 16 municipalities compose the province with Koronadal as the provincial capital.

### POPULATION

As reported in the 1980 census, South Cotabato had 770,473 population of which 394,180 were males and 376,293 were females. In terms of population size, the province ranked number 20 among the 73 provinces of the country. Its annual geometric growth rate of 5.60 percent showed only a slight increase of 0.88 percentage point since May 1, 1975. The population density of the province went up from 78.6 in 1975 to 103.2, or an increment of 24.6 persons per square kilometer within a period of 5 years.

Although South Cotabato is still predominantly rural with 67.02 percent of the populace residing in the rural areas, the extent of urbanization has moved up considerably by 6.79 percentage points since 1975 — from 26.19 percent to 32.98 percent in 1980. Consequently, the proportion of rural population has slid down from 73.81 percent in 1975 to 67.02 percent in 1980.

Shown in Table A is a comparative breakdown of the population classified according to urban-rural residence and sex.

## A BRIEF ANALYSIS

**TABLE A — URBAN- RURAL POPULATION BY SEX,  
SOUTH COTABATO: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>770,473</u>	<u>100.00</u>	<u>586,867</u>	<u>100.00</u>	<u>466,110</u>	<u>100.00</u>
Male	394,180	51.16	302,059	51.47	238,038	51.07
Female	376,293	48.84	284,808	48.53	228,072	48.93
Urban	<u>254,121</u>	<u>32.98</u>	<u>153,688</u>	<u>26.19</u>	<u>139,207</u>	<u>29.87</u>
Male	127,663	16.57	77,529	13.21	69,811	14.98
Female	126,458	16.41	76,159	12.98	69,396	14.89
Rural	<u>516,352</u>	<u>67.02</u>	<u>433,179</u>	<u>73.81</u>	<u>326,903</u>	<u>70.13</u>
Male	266,517	34.59	224,530	38.26	168,227	36.09
Female	249,835	32.43	208,649	35.55	158,676	34.04

## A BRIEF ANALYSIS

The sex ratio (number of males for every 100 females) of South Cotabato declined from 106.06 in 1975 to 104.75 in 1980. The predominance of males was noted in both urban (100.95) and rural (106.68) areas.

The population pyramid for the urban and rural population, male and female, tend to follow an expansive profile of the age-sex distribution. A bigger number of the rural male and female population are below 5 years old. From this age group to 80 years old and over, the population (male and female) respectively decline as each age group grows older, thus a pyramid-like configuration can be observed.

### AGE COMPOSITION

Despite its decreasing trend since 1975, the proportion of the younger age group (0-14 years) in South Cotabato remained high. From 48.49 percent in 1970, the proportion declined to 47.67 percent in 1975 and plunged further to 45.97 percent. The 15-64 bracket or the productive age group maintained its upward trend at 49.74 percent in 1970, 50.62 percent in 1975 to 51.96 percent in 1980. Comprising a small portion of the provincial population is the older age group (65 years and over) with 2.07 percent, covering a very slight increase of 0.36 percentage point within a period of 5 years.

The succeeding table shows the comparative figures of the age composition of the population in three censal years:

**TABLE B – AGE COMPOSITION OF THE POPULATION,  
SOUTH COTABATO: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>770,473</u>	<u>100.00</u>	<u>586,867</u>	<u>100.00</u>	<u>466,110</u>	<u>100.00</u>
0-14 years	354,177	45.97	279,766	47.67	225,998	48.49
15-64 years	400,330	51.96	297,057	50.62	231,852	49.74
65 years and over	15,966	2.07	10,044	1.71	8,260	1.77

The dependency ratio in the province diminished as a result of an increased percentage of persons in the productive ages. From 101.04 in 1970, dependency ratio dropped to 97.56 in 1975 and further down to 92.46 in 1980. Persons aged 0-14 years and 65 and over who comprised 48.04 percent of the population belonged to the "dependent" population. Surprisingly, there were more male dependents than females. Dependency ratio for the urban population is significantly lower, 84.74 as compared to the rural dependency ratio of 96.50. Of the total urban population, 43.73 percent were under 15 years of age, 54.13 percent were in the working age bracket and only 2.14 percent, 65 and over. Comparatively, 47.07 percent of the rural dwellers were 0-14 years of age; 50.89 percent, 15-64 years old and 2.04 percent, 65 and over (Table 3).

From 15 years in 1975, the median age moved up to 16 years in 1980 or an increase of 1 year, indicating that the population of South Cotabato is gradually getting older.

## A BRIEF ANALYSIS

### MARITAL STATUS

Majority (52.75%) of the total population 10 years old and over were married. The proportion of married persons maintained an upward trend since 1970, while unmarried persons displayed a diminishing trend. After an increase of 1.02 percentage points in its 1970-1975 proportion, married persons went up by 2.89 percentage points in 1980. Never married persons, on the other hand, dropped from 47.71 percent in 1970 to 47.38 percent in 1975 and fell further to 44.18 percent. Meanwhile, widowed persons showed only a slight increase of 0.29 percentage point and those divorced or separated, 0.02 percentage point.

A slightly higher proportion (54.00%) of the rural populace were married compared to 50.30 percent of the urban residents. Correspondingly, never married persons in the rural areas accounted for 42.92 percent while their urban partners, 46.66 percent.

Of the total male population 10 years old and over, 47.05 percent were never married, 3.63 percentage points lower than the 1975 figure. In contrast, the proportion of married males went up from 47.64 percent to 51.13 percent. Widowed males likewise increased

Divorced/separated	987	0.39	574	0.31	679	0.46
Not stated	126	0.05	79	0.04	353	0.24

## A BRIEF ANALYSIS

from 1.43 percent to 1.60 percent, whereas the divorced/separated dropped to 0.18 percent. Among the female population, 41.20 percent were single, 2.68 percentage points lower than the previous proportion. Married females, in contrast, hiked to 54.42 percent. Correspondingly, the widowed and divorced/separated gained by 0.38 and 0.08 percentage points, respectively.

### HIGHEST GRADE COMPLETED

Persons with elementary education (51.81%) still retained their lead over those in the other categories. Those who reached the secondary and college levels increased to 21.89 percent and 6.14 percent, respectively. Academic degree holders likewise gained by 0.82 percentage point, constituting 3.11 percent. Those with no formal schooling made up 16.86

## A BRIEF ANALYSIS

percent of the total private household population 7 years old and over, while those who did not disclose their educational attainment accounted for 0.19 percent.

Out of 300,220 persons who had elementary training, only 36.71 percent finished first to third grade. Nearly one-third (32.51%) graduated from the sixth or seventh grade; 17.09 percent attained the fourth grade and 13.69 percent, the fifth grade. Of those with secondary education, 66.15 percent reached anywhere from the first to third year while 33.85 percent graduated from fourth year. Most of the college undergraduates (83.31%) finished the lower collegiate years (first to third year) and only 16.69 percent completed the fourth or higher year.

## A BRIEF ANALYSIS

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER  
BY HIGHEST GRADE COMPLETED, SOUTH COTABATO: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>579,474</u>	<u>100.00</u>	<u>442,508</u>	<u>100.00</u>
No grade completed	97,696	16.86	71,741	16.21

**FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD POPULATION  
10 YEARS OLD AND OVER BY SEX, URBAN-RURAL, SOUTH COTABATO: 1980**

## A BRIEF ANALYSIS

### LITERACY

Nearly seventy-six percent (75.57%) of the total private household population 10 years old and over in South Cotabato were literate. The females generally outnumbered the males in literacy rate — 75.60 percent against 75.54 percent. The urban females also exceeded the urban males in literacy rate with 88.52 percent for the former and 88.27 percent for the latter. Nevertheless, in the rural areas, male literacy rate was recorded at 69.36 percent while their female counterparts constituted 68.72 percent.

### LANGUAGE OR DIALECT

Fifty languages and dialects are reported spoken in General Santos City and in the 16 municipalities of South Cotabato. Of the 134,566 private households, 49,212 or 36.57 percent, speak Hiligaynon (Ilonggo) — the most widely used dialect in the province. Cebuano is spoken by 30.70 percent; Bilaan, 7.42 percent; Ilocano, 6.67 percent; Tagabili, 5.73 percent; Tagalog, 3.52 percent; Maguindanao, 3.06 percent; Lineyte-Samarnon (Waray), 0.81 percent and Aklanon 0.79 percent (Table 7).

## A BRIEF ANALYSIS

### GAINFUL OCCUPATION

Of the total private household population 15 years old and over, 51.35 percent are engaged in gainful occupation.

The number of gainful workers went up to 212,661 from the 1975 report of 154,042 and 144,446 in 1970. Agricultural, animal husbandry and forestry workers, fishermen and hunters (68.49%), although the topmost group since 1970, suffered a setback of 1.34 percentage points over the 1975 figure. Production and related workers, transport equipment operators and laborers likewise continued to decline from 14.96 percent in 1970 to 12.47 percent in 1975 and to 11.36 percent in 1980. Service workers, now third in rank, gained 1.86 percentage points to 5.73 percent, while sales workers rank fourth with 5.61 percent. Professional, technical and related workers at 4.73 percent, slightly increased by 0.80 percentage point. While clerical and related workers rose from 2.44 percent to 2.82 percent, administrative, executive and managerial workers dropped from 0.70 percent to 0.36 percent. Workers not classifiable by occupation slid down from 0.98 percent to 0.90 percent.

Majority (52.36%) of the urban population are engaged in gainful occupation compared with 50.83 percent among rural residents. Production and related workers, transport equipment operators and laborers are predominant in the urban areas while in the rural areas, as expected, many are agricultural, animal husbandry and forestry workers, fishermen and hunters.

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER  
BY MAJOR OCCUPATION GROUP, SOUTH COTABATO:  
1970, 1975 AND 1980**

Major Occupation Group	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>212,661</u>	<u>100.00</u>	<u>154,042</u>	<u>100.00</u>	<u>144,446</u>	<u>100.00</u>
Professional, technical and related workers	10,068	4.73	6,047	3.93	9,487	6.57
Administrative, executive and managerial workers	772	0.36	1,077	0.70	1,008	0.70
Clerical and related workers	5,995	2.82	3,761	2.44	3,297	2.28
Sales workers	11,932	5.61	8,906	5.78	6,083	4.21
Service workers	12,181	5.73	5,962	3.87	5,515	3.82
Agricultural, animal hus- bandry and forestry workers, fishermen and hunters	145,645	68.49	107,576	69.83	95,843	66.35
Production and related work- ers, transport equipment operators and laborers	24,165	11.36	19,210	12.47	21,606	14.96
Workers not classifiable by occupation	1,903	0.90	1,503	0.98	1,607	1.11

## A BRIEF ANALYSIS

### MIGRATION

Of the 628,223 private household population 5 years old and over, 91.13 percent were residents of the same city or municipality on May 1, 1975 and on May 1, 1980. Out of 55,694 persons or 8.81 percent who changed residence at one point between May 1, 1975 and May 1, 1980, 4.24 percent transferred to another municipality within their home province while 4.57 percent moved across provincial boundaries. A negligible portion of the population were then residing in foreign countries (0.06%). In the intra-provincial migration or those who transferred from one city/municipality to another, there were more males (2.15%) than females (2.09%); migrants who moved across provincial boundaries (inter-provincial migration) had more males (2.37%) than females (2.29%). Of those who came from foreign country, an equal proportion of males (0.03%) and females (0.03%) was observed.

### TYPE OF BUILDING

Most households (93.58%) in South Cotabato are occupying single houses. The rest live in duplex (2.59%); apartment/accesoria/condominium/row house/etc. (1.60%); improvised structures like barong-barong (1.14%); commercial/industrial/agricultural buildings (1.00%) and other types of buildings (0.09%).

A higher proportion of single house occupants is observed in the rural areas (68.79%) compared to 31.21 percent in the urban sector. Households living in improvised structures are more common in the rural (72.05%) than in the urban (27.95%) areas. Many occupants of other housing units like natural shelter and boat are likewise found in the rural sector (80.00%) while only 20.00 percent are in the urban areas. In addition, households living in

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS  
BY TYPE OF BUILDING, SOUTH COTABATO: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>134,566</u>	<u>100.00</u>	<u>76,297</u>	<u>100.00</u>
Single house	125,920	93.58	72,126	94.53
Duplex	3,485	2.59	1,050	1.38
Apartment/accesoria/condominium/ row house/etc.	2,157	1.60	663	0.87
Improvised (barong-barong)	1,535	1.14	1,188	1.56
Commercial/industrial/agricultural	1,346	1.00	1,260	1.65
Other housing unit: natural shelter, boat, etc.	25	0.02	—	—
Hotel, lodging house, dormitory, etc.	26	0.02	—	—
Institutional (hospital, convent, school dormitory, etc.)	25	0.02	10	0.01
Other collective living quarters (military camp, etc.)	47	0.03	—	—

## **A BRIEF ANALYSIS**

other collective living quarters such as military camp, etc. are entirely located in the rural areas.

In contrast, 68.29 percent of duplex structures are occupied by urban households with only 31.71 percent by rural households. Almost ninety percent of the households occupying apartment/accesoria/condominium/row house/etc. are in the urban sector while 10.25 percent are rural dwellers. As expected, commercial/industrial/agricultural buildings are a common sight in the urban sector (79.42%), with only 20.58 percent in the rural areas. Also, urban households account for over three-fifths (61.54%) of those residing in hotels, lodging houses, dormitories, etc.; the remaining 38.46 percent are rural households. Moreover, occupants of institutional buildings (hospital, convent, school dormitory, etc.) are higher in the urban (80.00%) compared with twenty percent in the rural areas.

### **TYPE OF OCCUPANCY**

It is interesting to note that 80.98 percent of the total households are owners of their dwelling units. The rest of the households are either tenants/lessees (11.04%), subtenants/sublessees (0.45%), or rent-free occupants (7.53%).

### **CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS**

Majority (51.78%) of the households in South Cotabato are living in dwelling units constructed with roofs of light materials such as cogon/nipa, makeshift/salvaged materials and other such as anahaw, etc. while 48.22 percent have roofs of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone and asbestos). Dwelling units of most households (73.29%) in the urban areas are built with roofs of strong materials; only 26.71 percent have light materials. In contrast, 64.44 percent of the households in the rural areas have units built with roofs of light materials while 35.56 percent use strong materials.

As to construction materials of outer walls, 58.15 percent of the households are in dwelling units constructed with walls of light materials (bamboo/sawali, cogon/nipa, makeshift/salvaged materials and others like anahaw). Over two-thirds or 69.02 percent of the households in the urban areas are occupying dwelling units built with walls of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone, wood/plywood, mixed tile/concrete/brick/stone and wood/plywood, and asbestos); whereas 30.98 percent live in dwelling units with walls of light materials. Among the rural households, however, 71.92 percent use light materials, while 28.08 percent can afford to use walls of strong materials.

### **YEAR BUILT**

More than half (53.63%) of the total households are occupants of structures built in 1976-1980; 24.00 percent, during 1971-1975; 17.21 percent, 1961-1970 and 4.43 percent, 1951-1960. Barely 0.57 percent live in buildings erected in 1942-1950 and only 0.16 percent before World War II (Table 2).

### **FLOOR AREA OF DWELLING UNIT**

Table 3 shows that 58.60 percent of the households in the province occupy dwelling units with floor area of less than 30 square meters. Almost thirty percent (28.31%) live in 30-49 square-meter dwelling units; 7.04 percent occupy units 50-69 square meters and 3.38 percent, 70-99 square meters. Only 2.67 percent have spacious dwelling units from 100 square meters and over.

## **A BRIEF ANALYSIS**

### **TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND**

Out of 108,967 total households who are owners of their dwelling units, 61.87 percent also own the land where the structures are erected. The remaining 38.13 percent are distributed as follows: 10.23 percent, lessee or sublessee; 12.64 percent, farm lessee/agricultural tenant of landowner; 5.47 percent, other legal tenure and 9.79 percent, no tenure such as squatter, etc. (Table 4).

### **SOURCE AND USE OF WATER SUPPLY**

A great number of households in South Cotabato depend mainly on the tubed/piped deep well than any other source of water supply whether for drinking (31.09%), for kitchen use (31.03%), or for washing clothes (30.13%). More than one-fourth (25.51%) use water from tubed/piped shallow well for drinking; 17.14 percent, spring; 12.81 percent, dug well; 9.22 percent, faucet, community water system and 3.23 percent, lake, river, stream, etc. Only 1.00 percent utilize rain water for drinking. For kitchen use, 25.15 percent depend on tubed/piped shallow well; 16.76 percent, spring; 13.20 percent, dug well; 8.82 percent, faucet, community water system and 4.28 percent, lake, river, stream, etc. For laundering clothes, 24.27 percent use water from tubed/piped shallow well; 14.68 percent, spring; 10.66 percent, dug well; 11.58 percent, lake, river, stream, etc. and 8.01 percent, faucet, community water system. Very few households depend on rain either for kitchen use (0.76%) or for washing clothes (0.67%).

### **KIND OF LIGHTING FACILITIES**

Kerosene is still the most widely used lighting facility in the province although a decline is noted since 1970 – from 88.85 percent to 81.52 percent. In contrast, electric users gained considerably by 5.01 percentage points to 14.31 percent, compared to only 9.30 percent in 1970. Liquefied petroleum gas is used by 2.71 percent, oil by 0.48 percent and other kinds, 0.98 percent. Almost two-thirds or 63.20 percent of the urban dwellers use kerosene, a decrease of 9.17 percentage points over the 1970 figure. Consequently, users of electricity (33.46%) rose by 7.54 percentage points. Majority (90.77%) of the rural households use kerosene, a decrease of 4.89 percentage points. Consumers of electricity correspondingly increased 2.20 percentage points or to a total of 4.64 percent. Liquefied petroleum gas which was not used in 1970, is now used in the urban (2.78%) as well as in the rural (2.67%) areas. A very small portion of the households use oil and other types – 0.56 percent in the urban and 1.92 percent in the rural areas (Table 5).

### **COOKING FUEL**

Census results show that wood or charcoal is the most common (81.33%) type of cooking fuel in South Cotabato despite a decrease of 8.83 percentage points since 1970. The proportions of households using kerosene (11.42%), liquefied petroleum gas or LPG (4.02%) and electricity (0.62%) accelerated, respectively, by 5.24, 1.32 and 0.20 percentage points. Households using other types of cooking fuel (2.61%) likewise gained by 2.08 percentage points over the 1970 proportion. Wood or charcoal is predominantly used in both urban (69.33%) and rural (87.39%) areas, although the proportion is much lower than the 1970 proportion – 77.32 percent in the urban and 95.47 percent in the rural sector. More urban households cook with kerosene (16.26%) and LPG (9.29%) compared to the 1970 figures of 14.19 percent and 6.80 percent, respectively. In the rural areas, users of kerosene also increased from 2.88 percent to 8.99 percent after a decade and LPG users, from 1.01 percent to 1.35 percent.

## **A BRIEF ANALYSIS**

### **TOILET FACILITIES**

Water-sealed with other depository is the most common type of toilet facility in the province with 26.43 percent of the total households using it. Open pit is used by 24.89 percent; closed pit, 18.44 percent; water-sealed with sewer/septic tank, 17.13 percent and other such as pail system, 0.66 percent. Only 12.45 percent of the households are without toilet facilities. More than one-third (34.81%) of the urban households are using water-sealed toilet with other depository, while 33.26 percent use water-sealed with sewer/septic tank; 12.19 percent, closed pit; 9.68 percent, open pit and 0.54 percent, other types. Among the rural households, 32.58 percent use open pit; 22.20 percent, water-sealed with other depository; 21.60 percent, closed pit; 8.98 percent, water-sealed with sewer/septic tank and 0.71 percent, other. Households without toilet facilities constitute 9.52 percent in the urban areas and 13.93 percent in the rural areas.

### **OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER**

Table 9 shows that 60.34 percent of the households have radios; 3.90 percent possess television sets and 5.80 percent, refrigerators or freezers. These figures are markedly higher compared to the 1970 proportions of 43.26 percent, 0.18 percent and 2.26 percent, respectively. Of the urban households, 67.92 percent own radios; 9.18 percent, television sets and 12.65 percent, refrigerators or freezers while among the rural populace, majority (56.52%) have radios; 1.23 percent own television sets and 2.35 percent, refrigerators or freezers.

## CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form  
(Printed Name & Sign)  
 Title \_\_\_\_\_  
 Date \_\_\_\_\_ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12-01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if this crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
